VERZILVERBAD Een zeer snel professioneel verzilveringsmiddel. Met dit product kunnen zilveren, koperen, messing en andere metalen van koper, brons, messing en andere laagwaardige legingen eenvoudig en snel verzilverd worden. Dit maakt verschillende voorwerpen die slijtage vertonen, weer tot als nieuw en de nieuwste decoratieve voorwerpen worden de meest recent professioneel verzilverd. (Bijv. Spiegels die ingeslagen zijn met een vinger of een vinger van een ander materiaal). Dit een goede bescherming te krijgen, alsof het te verzilverde voorwerp alleen en wordt te zijn. In Nederland bekend onder de naam: VERZILVERMIDDEL.

Door het gebruik met (niet-giftige!) bestrijdings-
 agent als alcohol of wijnsteenzuur openen de schubben
 op de ankersel stich waardoor de kleurstof
 zich beter aan de wand kan hechten.
 Wijnsteenzuur kan de kleuren bij het plumbierij
